

Changes to the Michigan Pharmaceutical Product List and the Preferred Drug List
October 2009

The Department will make the following changes to the Michigan Pharmaceutical Product List and the Preferred Drug List:

- Apленzin:** add to the Michigan Pharmaceutical Product List (MPPL)
- Rapaflo:** add to the MPPL and to the Preferred Drug List (PDL) with prior authorization (PA)
- Acanya:** this drug remains non formulary because the manufacturer has not signed a rebate agreement with the federal government
- Vimpat:** add to the MPPL with an electronic edit that looks for use of first line anti-epileptic drugs
- Toviaz;** add to the PDL with PA
- Apriso;** add to the PDL with PA
- Uloric:** add to the MPPL with an electronic edit looking for use of allopurinol, probenecid products
- Promacta:** add to the MPPL
- Kapidex:** add to the PDL with PA
- Vectical;** add to the MPPL with a maximum quantity limit as stated in its licensure
- Afinitor:** add to the MPPL
- Lamictal XR and ODT:** add to the MPPL
- Lo-Seasonique:** add to the MPPL
- Ryzolt ER:** add to the PDL with PA
- Gelnique 10% gel:** add to the PDL with PA
- Amitiza:** remove PA requirements

These changes will take place approximately October 15, 2009.
